

HARBORTOUCH QSR & DELIVERY

THE POINT OF SALE SYSTEM THAT WILL
 REVOLUTIONIZE YOUR BUSINESS
FOR FREE!

QSR & DELIVERY FEATURES

- Driver management features allow you to easily assign drivers to specific orders. View order details and even see how long each order has been waiting.
- Advanced mapping functionality for delivery orders allows you to print directions right on the receipt paper. You can even print directions with multiple stops to deliver more than one order in a single trip.
- Advanced caller ID integration – easily manage incoming calls. View each customer's contact information and order history as the call comes in and then assign each call to a new order in a single step.
- Split checks, share items and transfer tickets to other servers.
- Create item discounts to accommodate daily specials, coupons or happy hour
- Customer database is ideal for loyalty programs or direct marketing.
- Easily add, edit or remove menu items, modifiers and menu categories.
- Advanced reporting functionality.

ADVANCED REPORTING

- More than 80 built-in reports help reduce accounting and bookkeeping expenses
- Monitor financials
- View sales history to predict volume and schedule employees appropriately
- Identify sales trends, bestselling items and productive employees
- Monitor discounts, voids and refunds
- Database stores all information indefinitely for unlimited history reporting
- Export as PDF, Excel, .csv, .rtf or other file formats

It has never been easier to take advantage of the benefits of a point of sale (POS) system. Harbortouch offers a full-featured POS system without all the hassle or the high cost. We removed the cost barrier and simplified the process so you can easily transition from your current transaction terminal to a state of the art touch-screen POS system that will streamline your business operations and automate your daily management activities. Harbortouch offers countless time and money saving features that will allow you to focus on what's important: keeping your customers satisfied and spending!

STREAMLINE YOUR BUSINESS

- Manage employee schedules and productivity
- Track employee hours with a built-in time clock
- Combine multiple operations into one easy-to-use application
- Comprehensive reports provide a top-level picture of your business
- A range of features specific to quick service and delivery restaurants

SAVE TIME AND MONEY

- Quicker table turns
- Increase wait staff efficiency
- Reduce server and kitchen errors

ONSITE INSTALLATION AND EXCEPTIONAL SUPPORT

- 24 hour in-house customer service and technical support
- Remote support allows the Harbortouch support team to repair any software issues at any time
- Experienced and certified installation professionals make sure your system is set up correctly the first time

THE COMPLETE PACKAGE

When investing in a Harbortouch POS system, you're not only getting state-of-the-art software; you are also getting top-of-the-line hardware. Each piece of equipment that makes up every Harbortouch system has been specifically developed to perform in the most demanding restaurant environments. Unmatched in durability and reliability, a Harbortouch system will provide a point of sale solution for years to come.

- * Service agreement and merchant account are required.
- ** Monthly service and quarterly software update fees apply.
- *** Merchants are required to complete the online wizard which will customize POS items and options. Support given by Harbortouch POS help desk only.

Streamline Delivery Orders with Caller ID

Perfect for pizzerias or other restaurants that offer delivery, Harbortouch offers a fully integrated caller ID module.

This accessory will allow you to view incoming calls directly on your POS screen. If the call coming in is recognized as an existing customer, the system will automatically display their information and then enable you to quickly create a new order for this customer. If the number calling is not recognized, the system will bring up the “create new customer screen” to enter your customer’s information and then allow you to easily enter the order for that customer. Your customer’s information will then be saved for future orders.

If you have multiple Harbortouch stations at your business, you can decide which Harbortouch station is set up to receive the calls so that your other stations are not affected.

Three options are available: 2-line, 4-line and 8-line, depending on the expected inbound call volume.

Contact your sales representative to add a caller ID module to your Harbortouch system today!
